THE DOS AND DON'TS

SINS OF OMISSION AND COMMISSION OUTLINED IN CHARGE.

REV. HARKNESS INSTALLED

Impressive Service Participated in by Ministers of His Faith and Witnessed by Brother Pastors.

Rev. S. D. Harkness was formally installed as pastor of the Presbyterian church of this city Wednesday evening.

Rev. A. D. Seelig of Grant City, moderator of the St. Joseph presbytery, preached the sermon. His subject, "The Ideal Church." After the sermon Rev. Seelig propounded the constitutional questions to the pastor-elect and congregation.

This was followed by the charge to the pastor, delivered by Rev. A. W. McGlothlin of Savannah.

The charge to the congregation was given by Rev. A. M. Reynolds of St. Joseph, a former pastor of the Maryville church.

Miss Lillian Lindholm then rendered a solo and the ladies of the church served refreshments in the church parlors and a delightful social time was enjoyed by all. The ceremonies were largely attended. Among the visitors were Dr. and Mrs. J. S. Ford of the First M. E. church, Rev. and Mrs. C. J. Miller of the Christian church, Rev. Harrel of the Baptist church of this city, and J. L. Hepburn, an elder of the Presbyterian church of Hopkins.

Rev. Harkness began his pastorate with the Maryville church the first of February, and has proven himself the man the church and our community are in need of. The church work has taken on new life and many have been added to the membership. He is popular with the young men of our town and his influence is already felt among the church people of our city.

Rev. Reynolds said in part in his address giving the charge to the congregation:

The St. Joseph presbytery makes it my duty to charge you. This implies one of two things—either you are not fully aware of the importance of the relations you are entering into with Brother Harkness, or you need your pure minds stirred up by way of remembrance. It occurs to me you have had three such charges in the narrow limits of my recollection.

The division of my subject consists of two parts, the sin of omission and the sin of commission; or, to express it in another form, the dont's and dos of this congregation. First let us consider the dont's.

Don't spoil your pastor by telling him he is working or studying too hard. Hard work or hard study never hurts a preacher. He may be hurt by the way he goes at it, but not by the work itself. All of the best preachers are hard students.

Don't see your pastor's faults, weakness and mannerisms sufficiently serious to ever speak of them in the presence of your family or to others. If you must speak of them, speak to the pastor alone.

Don't forget you are fellow workers with God, and your pastor is the leader. He has the interests of the congregation at heart as a whole, and will do what seems best for each individual, so far as he is able. You are his colaborers and should aid him as much as possible.

Don't make empty seats in the Sunday school, the regular Sabbath services and mid-week meetings. Let God do that.

Don't jump on the pastor's push cart and try to ride. Rather take hold with him and push.

Don't lock your money vault when the pastor asks a contribution for missions. If you have not given a tenth of your income for the Lord's work you are in debt. One-seventh of your time and one-tenth of your income is what the law demanded, and we have not heard of its change. This church should give as much to outside work as it spends at home.

Don't be an off ox. An off ox is the one on the opposite from the driver.

When I came to you years ago you were sick, very sick. I spanked you, I loved you, I mothered you. You agreed to bury the dead past. Then there came that wonderful revival under the leadership of Major Cole, and over a hundred united with this church. I mothered you a while longer, and, according to agreement with Bro. Townsend, who was a co-worker, I

REV. S. D. HARKNESS.

left you one among the strongest churches of the Platte presbytery.

Now, friends, if you fail to observe these seven don'ts, the one who mothered your mother will be a very sick man.

This leads us to our text, I Thes. 5;12-13—"We beseech you, brethren, to know them that labor among you, and are over you in the Lord, and admonish you, esteem them exceeding highly in love for their work's sake." "Be at peace among yourselves."

This last sentence contains the eternal quality of a congregation's success.

Second, the next part of this charge is the dos.

In Col. 3;12-16, Paul tells us what the dos mean. "Put on therefore as God's elect, holy and beloved, a heart of compassion."

The prefix con means with. Cut that off and we have "passion." Put on a heart of "passion" for truth, for spiritual power, for love" for Christ, for his righteousness, for men. A passion to make others happy and better.

"Kindness." The ness signifies state or condition. Cut it off and we have kind. Take away the "d" and we have "kin." There is the root of the word. Kin to man, kin to Christ, kin to God.

Put on a heart of lowliness. Drop the ness and the ly and the word low is left. Jesus came from heaven's glories to our low earthly state. He was "lowly in heart." So we must come down from our pride and arrogance and, like Him, "put on a heart of lowliness." "Put on a heart of meekness." Put on teachableness. "Blessed are the meek for they shall inherit the earth."

Put on, beloved, a heart of "long suffering," forbearance and forgiving, as God forbears and forgives.

Again, put on "love." Here is the top of Jacob's ladder, the mountain peak of regeneration, and the high plain of God's gladness.

Now, "let the peace of Christ rule in your hearts."

"Be ye thankful." It is easy, when you have ascended the scale of these dos. The pastor's heart will be glad as he witnesses this onward movement in your life. How can you meet these conditions? Here is the secret: "Let the word of Christ dwell in you richly."

Acts 1;4—wait at Jerusalem till you are baptized with the Holy Spirit—till the power comes upon you.

Ten days later, Acts 2;4—"And they were all filled with the Holy Spirit."

With this fire in your soul people will crowd your church to warm in the life giving heat. I charge you observe, practice the dont's and dos.

Miss Allie Fraser went to St. Joseph Wednesday evening to be the guest of Miss Helen Ardery at the Tootle theater for "Chanticleer," given by Maud Adams.

NORMAL PRESIDENT URGES CONCERTED AND INDIVIDUAL ACTION

WOULD DECORATE CITY

Beauty of City's Appearance at First Track Meet Recalled—Business Houses Asked to Close.

President H. K. Taylor of the Normal asks for the co-operation of the people of Maryville and the vicinity in the events of next week. He writes as follows:

The Normal school is spending a considerable amount of money in advertising the track meet, short course in home making, oratorical contest and teachers' association, while the people of the city are not called upon to contribute a cent to the cause. But the citizens can, at a very small cost, help very largely in making the occasion a success. Just a little expenditure for flags, bunting and pennants will give the town that gala appearance that so charmed our visitors the first year of the meet. The school colors are white and green.

I should therefore greatly appreciate it, on behalf of the school, if the people generally would co-operate in the directions indicated above. It has also been suggested by a number of people that it would add much to the prestige and interest if our business men would consent to close for a couple of hours, say from 2 to 4 o'clock. It is a foregone conclusion as it has been in the past, namely that everybody will be at the track meet during those hours, provided they can get away from their places of business.

I hope, therefore, that everybody will be given a chance to go that would like to attend. Also I should like to request the people of the town who expect to take boarders for that occasion will fill out cards and send them to the committee at once. These cards will be found at the Orear-Henry drug store, Ferritor's drug store, Raines Bros.' and Reuillard's.

The evidences are increasing every day that there will be a record breaking crowd in attendance. I greatly appreciate the help of the local press and of the people generally who not only take a deep interest in the occasion but are ever ready to render all assistance and to make the meet a success.

H. K. TAYLOR.

Visiting Her Friend.

Mrs. J. C. Shuff of Pickering came to Maryville Thursday morning to spend the day with her former friend and neighbor, Mrs. J. M. Smith of St. Joseph, who is visiting at the home of her parents, Mr. and Mrs. W. A. Townsend. Mrs. Townsend is in quite poor health and has been confined to her bed for several weeks.

MONEY HALF RAISED

$250 SECURED BY SOLICITORS FOR CARL WRIGHT FUND.

MAKE ALL DAYS GOOD ONES

An Opportunity for Maryville to Help Make One Boy's Life Happy and Relieve Suffering.

E. E. Williams and W. F. Pnares, the committee selected to solicit money to pay for the medicine and hospital treatment of Carl Wright, reported $250 raised at 2 o'clock Thursday afternoon. That is just half of the amount required for the little fellow's treatment before he goes to Dr. Murphy of Chicago, the great bone surgeon, who will make a joint at the hip, where the bones have now grown solidly together from disease.

The boy will have to lie in bed at the hospital for eighteen months with a weight attached to his leg to stretch it and keep it from drawing, while hypodermic injections of tuberculin will be given each day as prescribed by the Chicago specialist.

The treatment will be administered free by Dr. Will Wallis and Dr. C. T. Bell, who are anxious to begin the treatment and watch the life-making process of the cure with an interest that a physician only can feel.

The boy was injured by a fall when he was a small child, and the disease to the bone that has resulted has caused him untold misery and pain, and he is no larger than most children of 5 years of age, although he is 12.

But he has become a regular little philosopher through his suffering. One day last summer, before the matter of treatment was thought of for him, Mark Turner found him all alone in a stairway, has face drawn with pain, and asking him what was the matter, he said: "Oh, I'm just having one of my bad days. I guess I can't expect every day to be all right."

Will not the people of Maryville do their part toward making all of this little boy's days free of pain? It is possible to be done, and it is as much our duty to relieve the suffering of a little child as it is to build schools, colleges and churches.

Only $250 more. Why not some of the women's club of the city take this matter up and raise the money that is lacking quickly? We believe the women of our city could secure that amount by making a house to house canvass of the town. Let's try and see.

Class Night at Pickering.

The class night for the Pickering high school graduating will be held Thursday evening at the M. E church in that town. The commencement exercises will be held Friday evening.

FIRST RESULT OF THE COLLISION

ACCORDING TO MARINE AUTHORITIES, THE DAMAGE SUSTAINED HERE MARKED THE BEGINNING OF THE END.

WANTED IN KANSAS.

J. A. Dean Arrested Thursday Morning by Deputy Sheriff Evans and to Be Taken to Newton.

J. Alfred Dean, who has been employed on the farm of Elmer Fraser, was arrested Thursday morning by Deputy Sheriff Evans for the authorities at Newton, Kan., who claimed that Dean is charged with securing goods amounting to $24 under false pretenses at that place. Dean will be taken there as soon as one of the officials from that city arrives.

Dean told Mr. Evans that they had arrested the wrong man and that he was not guilty. It is said that Dean was once in the penitentiary, having been paroled after serving a ten months' sentence.

TO MANDAMUS CITY.

To Issue Commission to 'Squire J. W. Morris as Police Judge—Meeting of Council.

At a special meeting of the city council held Wednesday evening to discuss the police judgeship matter, no action was taken by the board other than to wait until the mandamus suit is filed against them, upon the advice of City Attorney W. A. Blagg.

F. P. Robinson, attorney for 'Squire J. W. Morris, who is claiming the office by virtue of having received a majority of votes cast at the last city election for that office, appeared before the board with a statement of the matter as shown by the record, and requested that the council make the necessary corrections, if there were any, and that this statement be presented before Judge Ellison at a session of circuit court to be held Saturday, and let the court decide the matter.

City Attorney Blagg advised the board not to agree with the statement of facts, and told them to let the other side file their mandamus suit forcing them to issue the commission to 'Squire Morris, which case would be taken up at the June term of circuit court before Judge Ellison. "The cost of the suit would amount to very little," continued Mr. Blagg.

One of the main points in the case will be whether the vote of Frank Ewing at the meeting of the council on March 15 to abolish the office of police judge should be counted, as he had moved from the Fourth ward to the First ward, and was elected as alderman from the Fourth. Ewing's vote gave the ordinance the necessary majority.

The writ of mandamus against the city will probably be filed this afternoon.

NOTABLES COMING

FIVE MEN OF WIDE REPUTATION TO SPEAK FOR NORMAL.

ALL LECTURES ARE FREE

The List Includes Dr. Winfield Hall, Daniel Morton, Dr. J. A. Puffer, Supt. Evans and Gov. Hadley.

Within the next six weeks there will be brought to Maryville by the Northwest Normal school five notable personages. Every one of these are men of wide reputation, and they will all address the students and faculty of the Normal, to which occasions the public is extended a cordial invitation.

The first of these men is Dr. Winfield Hall, dean of the medical department of Northwestern university. Dr. Hall will be with us on Monday, April 29. At 9 a. m. he will address the men; at the chapel hour he will talk to the general assembly, and at 11 he will address the women of the school. Dr. Hall is one of the great men of the country, and the people of the community should take this opportunity to hear him. The faculty and men students of the institution pay the costs of the speaker, and everyone is invited to attend free of charge.

The second occasion is on May 8, when Dr. Daniel Morton, one of the leading physicians of St. Joseph and of the west, will lecture at the assembly on the subject, "The Progress of Medical Education in the United States." Dr. Morton will especially emphasize the use of preventive medicine and public health. Dr. Morton is a man of high authority in his profession and a forceful speaker.

As was mentioned in Wednesday's issue of The Democrat-Forum, Dr. J. Adams Puffer of Boston will deliver the Normal commencement address on the night of May 22. His subject will be "Leadership." Dr. Puffer is the author of "The Boy and His Gang" and other notable books. This noted author and lecturer is possibly the equal of any other authority on the subject of boyhood and its problems, including all the subjects related thereto. This lecture will also be free of cost.

On May 24 State Superintendent of Schools W. P. Evans will talk on the mill tax proposition. Every one should hear Superintendent Evans on this subject. It is of vital importance to the cause of education in Missouri. Announcements concerning the place of the lecture will be given out later, but it is probable that it will be downtown.

The last man, but by no means the least, of this illustrious quintet of speakers is Governor H. S. Hadley, who will be in Maryville on the occasion of the annual reception and "open house" extended to the faculty and student body by the president.

Governor Hadley will deliver an address on this occasion, entitled "Rural Community Life." No word of commendation is needed for Governor Hadley. He is always interesting on any subject, but especially on the one mentioned above, as he has made it the object of particular study.

The one great emphasis that may be made to the public is that all of these talks may be heard without cost.

Went to See Maud Adams.

Mr. and Mrs. George P. Bellows, Mrs. James B. Robinson and son Chilton, Miss Georgia Condon, Miss Rena Sturm, Mr. Lawrence Schumacher, Mr. Cleve Funk and Mr. Oliver Bovard went to St. Joseph Wednesday evening to see Maud Adams in "Chanticleer."

GOING TO HELL.

Church Bell at Hopkins Rang Every Hour Monday to Remind the Unsaved of Their Doom.

The revival meetings at the Baptist church are still in progress, with a big attendance and much interest manifested.

In discussing future punishment Rev. Stewart last Sunday night declared there is a literal hell just as sure as there is a heaven—a lake of fire where the unjust will be cast to suffer through all eternity.

On Wednesday the church bell rang for five minutes every hour during the day to remind the unsaved they are on the road to that country where there is weeping and wailing and gnashing of teeth, where they will be thrown into a lake of brimstone and fire to suffer day and night, forever and forever.

This statement was not made by Rev. Stewart to be sensational, but to remind sinners there is yet time to flee from the wrath of a just God and now is the accepted time. All are invited to these meetings and will be heartily welcomed.—Hopkins Journal.

Mrs. Montgomery Again Very Low.

Mrs. R. Bruce Montgomery of this city is again lying very low at the home of Mr. Montgomery's parents, Mr. and Mrs. J. F. Montgomery. Wednesday the physicians found it necessary to break the tendons of her lower limbs in order to straighten them, and she was unable to rally from the shock, and uremic poisoning has set in.

Policeman's Novel Excuse.

Policemen on trial at headquarters are apt at excuses, says the New York Sun. Former Inspector Williams used to tell of an officer who was charged with having lost his whistle. When asked to explain he said. "You see, I went home last night and put my whistle on the table. I turned round and, bless me, one of my kids was choking and nearly black in the face. You see commissioner, he'd swallowed the whistle?" "Is he dead?" asked the sympathetic commissioner. "No, sir," was the reply. "He isn't dead, but he's got the whooping cough, and now every time he coughs the whistle blows and the cop on the post comes a-running."

Home Health Club

By DR. DAVID H. REEDER, LaPorte, Ind.

A great walk—A musician of New York, Mrs. David Beach, is walking from New York City to Chicago, a thousand miles, and on the long tramp will eat nothing but raw food. She is an enthusiast on the "no meat" diet, and she is taking this long walk to prove her theory and contention that through a diet of raw food lies the road to health, wealth and happiness.

There is no wager to be laid on the feat and it will not even come under the newspaper heading, "Sports of the Day." Moreover, the lady is not performing the feat for notoriety or any other gain than that which she hopes to achieve for all the world in the matter of showing how the general health may be increased. She is evidently a well-to-do woman, as she will be accompanied on the tramp by her own automobile, chauffeur and maid and a correspondent, who will give the details of the trip to the press. Moreover, she pays all of her own expenses.

The lady will walk the entire distance, not for spectacular purposes, but as the most palpable way of exhibiting to all the world that one may undergo great exertion and continuous, like any other kind of labor, upon a diet from which meat or any other cooked food is excluded, and yet she does not advocate the idea that folks should not eat cooked food. On the contrary, in her daily life she uses cooked food, but no meat, and is on this trip, merely excluding cooked food to emphasize her contention that the simplest food is best for people to live on, and that much decreased quantities are better. She also admits that this should all be arrived at by degrees and should not be radically begun.

Altogether this person is the most reasonable "enthusiast" that has come into public notice, so far as we know. While she insists that walking is the handiest exercise for one to take, she does not suggest that one should walk a long distance to work and back. She does not insist that one should carry a lot of grain in a pocket, to be eaten between meals, that the kitchen range should be thrown out of a window, that one should eat anything that is not desired, but she declares that if she can persuade a great many to quit eating meat and very much of anything else, her mission will have been performed, and while she has a set of rules for diet that she strictly follows herself and thus keeps herself strong, healthy and competent, she only declares that the more of her rules that are adopted the greater will be the benefit to those who adopt them.

While declaring that coffee is bad for the health of anyone, she says: "If you believe that you must have your demi-tasse after dinner, have it, but please give up coffee at luncheon and drink milk instead. If your palate craves bacon and eggs, eat as little of the bacon as possible.

"I know that if you are liberal minded and take enough interest in my form of diet to read what I write about it you will be willing to try a few of its features. Once you obey one of my rules consistently or try half a dozen of my recipes, you are lost. Gradually the habit of following my advice will grow upon you and you will become healthy in spite of yourself.

"Everybody wants to be healthy, but few want to take the trouble. It is difficult for a person who lives in a boarding house to diet, no matter how much he may want to. I will tell you, though, how even the man who lives in a boarding house can improve his health.

"Most of my recipes need a kitchen—at least, a kitchenette—for their preparation. I am going to give you a great many recipes for dishes that require cooking. Even I eat cooked food when I am in my own home. I am going to touch nothing but raw foods on my long tramp, however. I want to undergo the most severe test possible to prove that my theories apply as well to the many who do manual labor as they do to the woman who has servants to wait upon her and who seldom goes out of her home."

Evidently this lady is very intelligent, decidedly philanthropic and very much in earnest. Moreover, many of her theories are sound, though to some extent impractical at this stage of the world. She will do a great deal of good, and it matters not how good it is done, so it is accomplished.

The Home Health club constantly advises the none-use of coffee, the very considerable reduction of meat, and at two of the meals of the three, none; the reduction of quantity in all foods consumed by the individual; the bring oneself to get along with. This, simplest foods that one can possibly with plenty of exercise, deep breathing, pure air and water, sanitation and all cleanliness, will work wonders in the advancement of the world through increase of health, capability and consequent happiness and prosperity.

As Mrs. Beach says: "Everybody wants to be healthy, but few want to take the trouble," and yet health means far more than physical good feeling. It means a better state of heart and mind, a greater capacity for doing well and, to the extent that it prevails, a better people and a better world to live in.

Club Notes.

Dear Doctor: Please tell me what can be taken or done to gain flesh. Am well, but very thin. Have been drinking warm milk with little satisfaction. Am 23 years old and married.

MRS. N. P. A.

Practice deep breathing systematically, three times daily, about one hour after each meal. For dessert eat daily two ounces salted almond nut meats, sleep between eight and ten hours every night. If you can do so, go to bed early and get up late. Take one quart of milk strippings fresh from the cow morning and evening. If you follow this regime religiously for six months and don't worry in the meantime, you will be as plump as you wish to be. If you don't gain the desired amount of fat under this system, then you should have a thorough and careful examination made by a reliable and experienced physician who is familiar with reflex nervous troubles and have the cause of mal-assimilation discovered and removed.

All readers of this paper are at liberty to write for information pertaining to the subject of health at any time. Address all communications to the Home Health club, or Dr. David H. Reeder, La Porte, Ind., with name and address in full and at least four cents in postage.

MEXICO DENIES RESPONSIBILITY

Criticizes Tone of American Note to Consul Letcher.

PREPARES TO RESIST INVASION

Madero Arranging for $10,000,000 Bond Issue to Place Army on Equal Footing With United States.

The City of Mexico, April 18.—The Mexican government refuses to recognize the right of the American government to instruct it on its duties in its observance of international law. The declaration is made in a statement by Minister of Foreign Affairs Calero in reply to the demand of Huntington Wilson, the assistant secretary of state.

President Madero is said to be arranging to raise $10,000,000 to prepare Mexico against an invasion of the United States. This statement was made by the secretary to the president, who gave it as a direct quotation from Madero.

It was declared that Madero now has a big deal on through which he hopes to raise funds to equip the army so that it will be as nearly on a footing with the United States troops as possible. With this sum, Madero's secretary said, the president would be able to put 60,000 Mexicans in the field and be prepared to meet the invading Americans in a fight for control of Mexico.

Denies Wrongdoing.

After setting forth at length the clauses of the Washington note, the minister said:

"In reply and by express instructions of the president of the republic I have the honor to say to your excellency:

"The Mexican government finds itself in the painful necessity of not recognizing the rights of your government to make the admonition which the note contains, for the reason that it is not based on any incident that should be chargeable to the Mexican government and which could signify that it might have departed from an observance of the principles and practices of international law.

"The authorities of the republic have always endeavored, within the limits of its law, to punish those who cause the damages to which your excellency alludes.

Not Responsible.

"My government has taken notice of the communication directed to the rebel, Orozco, by order of your excellency's government and through the conduct of Consul of Consul Letcher in Chihuahua.

"The Mexican government and people cannot be responsible for the acts of this rebel chief, along the lines laid down in the communication which was sent to him by order of your excellency's government.

"My government also deplores that the tenor of the instructions to Consul Letcher in Chihuahua were given to the public in the same official note which I have the honor to answer."

PRISONER ASSISTED OFFICER

Postoffice Robbers Caught With Their Booty by Jailer and One of His Charges.

Enid, Ok., April 18.—When Mark Conrad, the county jailer, received word from Minco, Ok., of the robbery of the postoffice there he took one of the county prisoners with him and captured the two robbers as they left a northbound passenger train here at the station. The men, John Newton and Charles Anderson, were found with $1,200 worth of stamps, $70 in silver money and bills, nitroglycerin, two revolvers, complete kits of burglar tools. Within five hours after the robbery they were in jail.

Charges of robbery were entered against both men and United States Commissioner Swigert bound them over to the federal court, fixing their bonds at $2,500 each.

SAVE STATE OF KANSAS $10,000

Plans Completed for Printing 24 Department Reports in One Consolidated Volume.

Topeka, April 18.—The state printing commission has just finished its plans to save the state almost $10,000 in printing the biennial reports of state departments and state institutions. Heretofore 24 departments and institutions have had separate reports, making a total of $5,041 pages. The printing cost was $3 a page or $15,000. All the reports will be consolidated into one volume of 1,700 pages and the cost will be about $5,000 for the same number of copies of the separate ones. The 24 reports filled a bookshelf three and one-half feet long and the consolidated report will make a book three and one-half inches thick.

Two Dead in Alabama Feud.

Selma, Ala., April 18.—J. T. Bradford and W. H. Bradford, widely known residents of Dallas county, are dead, George Hains is in a dying condition, and his nephew, named Hammond, is perhaps fatally injured as the result of a feud fight at Roache's Landing on the Alabama river, near here.

NO INFORMATION FROM CARPATHIA

Impossible to Get Details of Catastrophe From Cunarder.

LIST OF RESCUED IS COMPLETE

Scout Cruiser Chester Says all Names Except Steerage Passengers Sent Ashore — No Explanation From Surviving Officers.

New York, April 18.—Beyond even the mystery of how the mammoth Titanic met her fate, another mystery, evolved by the events of the last three days has forced itself to the front.

Although the rescue ship Carpathia was within the zone of wireless communication for hours during the night and both shore stations and relaying ships were able to obtain from her long lists of survivors among the steerage passengers and to send and receive numerous short messages from and to private individuals, not a word of matter descriptive of the manner in which the steamer received her death blow, or how those on board the doomed liner comforted themselves in the face of impending death reached the shore.

Neither was there any explanation forthcoming from the surviving officers of the Titanic as to how their ship came to strike the hidden obstacle in the ocean.

Wireless Perfect.

From the Marconi offices word came that repeatedly, when the wireless working conditions were perfect, the Carpathia was asked to convey to the waiting world some idea of what were the momentous happenings on the Titanic in the terrible three hours and 55 minutes between the time when she struck the iceberg off the banks and that of her final plunge to the bottom.

One explanation advanced was that the wireless operator of the Carpathia was exhausted as a result of his three days' work at the key.

But among the list of rescued on board the Carpathia is the second wireless operator of the Titanic, who might have been counted upon to relieve the wearied sender of the Cunarder.

Censorship Exists.

A censorship appeared to exist on the Carpathia, which prevented any response to inquiries of what had taken place after the Titanic struck the iceberg. The wireless operator on the Carpathia is an officer of the Cunard line and therefore subject to the ship's commander.

The roll of the saved from the disaster now seems complete. Virtually every attending circumstance in the transmission of news from the Carpathia goes to show that only 328 of the 610 cabin passengers of the Titanic are safe on the rescue ship.

Thousands of hopeful hearts were turned to despairing ones when the United States scout cruiser Chester "wirelessed" ashore late in the day that she had been in communication with the Carpathia and had asked repeatedly for the full list of the first and second cabin survivors and that the rescue ship reported that all the names had already been sent ashore.

The remainder of 340 persons saved were passengers in the steerage or members of the crew.

One New Name.

After the strain of three days' waiting without news of their missing ones, there were few of the hopeful that still held out against the seemingly final word as to the fate of friends and relatives.

The small remaining hope of the few who persistantly refused to believe the worst, rested on the faint possibility that the list of survivors sent by wireless, from the Carpathia, might not be quite complete after all.

The fact that one new name came through late in the day in a private message from the Carpathia, was the basis of what was a desire more than a hope that there were slips enough in her wireless lists to account for a few, at least, of those still unaccounted for.

TOO FILTHY FOR A PRISON CELL

Tramp, Arrested at Iola, Refused Admittance to Jail Because of Danger to Other Prisoners.

Iola, Kan., April 18.—J. R. Whaton, was refused admittance to the county jail here after being arrested for investigation, because he was a menace to the other prisoners. His clothes were filthy and his stubby beard was matted with dirt and cinders.

Chief Coffield was unable to induce anyone to furnish a bathtub or clean clothing and was obliged to chase the man out of town.

Whaton was loitering around vacant houses and frightening women and children. When bath was mentioned to him he glared. Whaton carried a tomato can and a catsup bottle in his pockets.

Salina Depot Burned.

Salina, Kan., April 18.—The Union Pacific passenger depot burned here at a loss of probably $6,000. The coupon ticket cabinet and all the tickets burned but the other contents were saved. Defective wiring started the fire. There was no insurance.

Should Be Worth Reading.

In Madison square she sat down for a moment. It was the noon hour and the benches were full of prisoners released from office and shop. Opposite her sat a horrible male creature all beak and double chin, alternately whispering and toothily leering into the face of the ravishing little typewriter seated beside him.

The pretty thing was all knowing smiles and tricks and feminine wiles. Finally, tossing her head, she announced:

"Well, some day I'm going to write a book, and I'm going to call it, 'As I Have Found It! As I Have Seen It!'"

"Life as found and seen by a New York typewriter girl ought to make very entertaining reading indeed," murmured the woman to herself as she pensively turned homeward.—New York Press.

SURVIVORS TO TELL CONGRESS

Will be Questioned Regarding Life Saving Equipment of Titanic.

MARATIME TREATY MAY RESULT

Congress Cannot Punish Steamship Company, But Much Good May be Accomplished by Proposed International Agreement.

Washington, April 18.—Survivors of the Titanic disaster will be summoned to Washington to tell committees of congress the facts concerning the inability of the steamship officials to save the lives of all the passengers on the giant liner. Representative Alexander of Missouri, chairman of the house committee on merchant marine and fisheries, announced an investigation in which the passengers will give chief testimony.

A resolution was adopted in the senate to direct the commerce committee to make a thorough inquiry into the Titanic tragedy and to empower the committee to summon witnesses and take any necessary steps.

No Power to Punish.

Congress cannot punish the steamship company, as it sailed under the British flag, but the information gained will go far toward revising laws affecting any ship sailing from an American port in the future.

Senator Perkins' resolution provides for the equipment of steamers with adequate life-saving apparatus. It would require that every steamer shall have a sufficient number of seaworthy life boats to carry "at one time every passenger and every membe of the crew; that it shall not clear any port without so certifying to the several supervising inspectors."

The house committee on merchant marine will speedily take up the many bills and resolutions which have been introduced bearing on the Titanic disaster.

Would Provide Imprisonment.

Representative Alexander of Missouri, chairman of the committee, introduced two resolutions. One would direct the president to invite the maritime nations of the world to appoint members of an international commission to define ship lanes and routes and to minimize the danger of collisions at sea. The other would extend a similar invitation to nations interested in north Atlantic steamship travel, to form a commission to arrange for a warship patrol of north Atlantic waters to warn ships.

Gen. George Uhler, supervising inspector general of the steamboat inspection service, expressed the vitw that much good could be accomplished by an international congress to consider life-saving appliances. He said there was no action that his department could take in the Titanic case in view of the fact that the vessel was a foreign craft, complying with the British navigation law.

Woman Head of Child Bureau.

Washington, April 18.—Julia C. Lathrop of Chicago, an associate of Jane Addams in the work at Hull house, a member of the Illinois board of charity and a graduate and trustee of Vassar college, was appointed by President Taft as chief of the new children's bureau in the department of commerce and labor. Miss Lathrop is the first woman to be made a bureau chief under the government.

IS NOT A CANDIDATE.

Mayor Robey Stated Thursday That He Would Not Run for State Senator.

Many friends have urged Mayor Robey to run for the Democratic nomination for state senator from this district. Mayor Robey said Thursday that he would not become a candidate for this office, as he was just recently re-elected mayor of the city and that he intends to serve out his term as such.

Mayor Robey's name was mentioned the first of the year for senator, but he said then that he thought he would run for mayor, as there were some unfinished business, started during his administration, which he would like to see carried through.

Quite a number of Masons from Skidmore and Maitland attended Masonic lodge at Quitman Wednesday night.

Mrs. Ed Lawson and children were in Burlington Junction Monday.

Mrs. Warner Graves was called Monday to the bedside of her brother's baby at Burlington Junction.

Dr. F. M. Ryan was a Maryville caller Friday.

James Stafford and wife, west of town, are the proud parents of a boy born one day last week.

William Manorgan has purchased a butcher shop in Ravenwood and will move as soon as he can get a house.

Mrs. B. C. Holt of Skidmore visited a few days with Mrs. W. S. Frankum, west of town.

Miss Alma Hotchkiss of the St. Joseph high school faculty arrived home Thursday to visit over Sunday with her mother, Mrs. Anna Hotchkiss. The St. Joseph schools are having a two days' vacation.

Moving Successward.

Joseph M. Gates was talking at the New York theater about the superfluity of show girls in Manhattan.

"Every opening," he said, "has a dozen show girls clamoring to fill it. I got thirty or forty girls positions in department stores last week. The surplusage of show girls is due to the fact that so many artists' models have turned to theatricals this winter.

"The models say there is no work for them. Art is in a bad way. The rich collectors buy nothing but old masters from abroad."

Mr. Gates smiled.

"But it would be nearer the truth," he went on, "to say that lots of artists are failures. Even the successes, you know, are only half a quarter successes—like the young surgeon.

"'How is your surgeon son doing?' one old man said to the other.

"'Oh, fine!' was the reply. 'Fine! He performed his eleventh appendicitis operation last week and the patient lived three hours'"—Cincinnati Commercial Tribune.

MRS. McGILL BROKE DOWN

Gives the Real Facts In Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good.

One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

THE DOS AND DON'TS

SINS OF OMISSION AND COMMISSION OUTLINED IN CHARGE.

REV. HARKNESS INSTALLED

Impressive Service Participated in by Ministers of His Faith and Witnessed by Brother Pastors.

Rev. S. D. Harkness was formally installed as pastor of the Presbyterian church of this city Wednesday evening.

Rev. A. D. Seelig of Grant City, moderator of the St. Joseph presbytery, preached the sermon. His subject, "The Ideal Church." After the sermon Rev. Seelig propounded the constitutional questions to the pastor-elect and congregation.

This was followed by the charge to the pastor, delivered by Rev. A. W. McGlothlin of Savannah.

The charge to the congregation was given by Rev. A. M. Reynolds of St. Joseph, a former pastor of the Maryville church.

Miss Lillian Lindholm then rendered a solo and the ladies of the church served refreshments in the church parlors and a delightful social time was enjoyed by all. The ceremonies were largely attended. Among the visitors were Dr. and Mrs. J. S. Ford of the First M. E. church, Rev. and Mrs. C. J. Miller of the Christian church, Rev. Harrel of the Baptist church of this city, and J. L. Hepburn, an elder of the Presbyterian church of Hopkins.

Rev. Harkness began his pastorate with the Maryville church the first of February, and has proven himself the man the church and our community are in need of. The church work has taken on new life and many have been added to the membership. He is popular with the young men of our town and his influence is already felt among the church people of our city.

Rev. Reynolds said in part in his address giving the charge to the congregation:

The St. Joseph presbytery makes it my duty to charge you. This implies one of two things—either you are not fully aware of the importance of the relations you are entering into with Brother Harkness, or you need your pure minds stirred up by way of remembrance. It occurs to me you have had three such charges in the narrow limits of my recollection.

The division of my subject consists of two parts, the sin of omission and the sin of commission; or, to express it in another form, the dont's and dos of this congregation. First let us consider the dont's.

Don't spoil your pastor by telling him he is working or studying too hard. Hard work or hard study never hurts a preacher. He may be hurt by the way he goes at it, but not by the work itself. All of the best preachers are hard students.

Don't see your pastor's faults, weakness and mannerisms sufficiently serious to ever speak of them in the presence of your family or to others. If you must speak of them, speak to the pastor alone.

Don't forget you are fellow workers with God, and your pastor is the leader. He has the interests of the congregation at heart as a whole, and will do what seems best for each individual, so far as he is able. You are his colaborers and should aid him as much as possible.

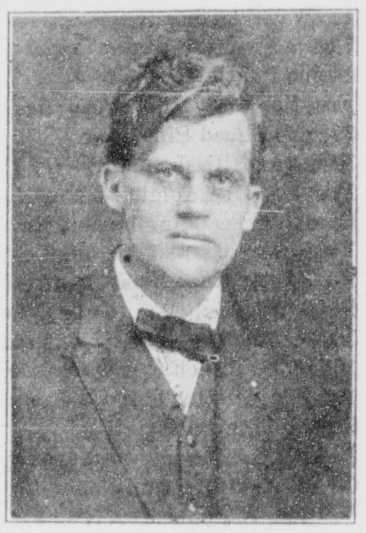
Don't make empty seats in the Sunday school, the regular Sabbath services and mid-week meetings. Let God do that.

Don't jump on the pastor's push cart and try to ride. Rather take hold with him and push.

Don't lock your money vault when the pastor asks a contribution for missions. If you have not given a tenth of your income for the Lord's work you are in debt. One-seventh of your time and one-tenth of your income is what the law demanded, and we have not heard of its change. This church should give as much to outside work as it spends at home.

Don't be an off ox. An off ox is the one on the opposite from the driver.

When I came to you years ago you were sick, very sick. I spanked you, I loved you, I mothered you. You agreed to bury the dead past. Then there came that wonderful revival under the leadership of Major Cole, and over a hundred united with this church. I mothered you a while longer, and, according to agreement with Bro. Townsend, who was a co-worker, I



REV. S. D. HARKNESS.

left you one among the strongest churches of the Platte presbytery.

Now, friends, if you fail to observe these seven don'ts, the one who mothered your mother will be a very sick man.

This leads us to our text, I Thes. 5;12-13—"We beseech you, brethren, to know them that labor among you, and are over you in the Lord, and admonish you, esteem them exceeding highly in love for their work's sake. "Be at peace among yourselves."

This last sentence contains the eternal quality of a congregation's success.

Second, the next part of this charge is the dos.

In Col. 3;12-16, Paul tells us what the dos mean. "Put on therefore as God's elect, holy and beloved, a heart of compassion."

The prefix con means with. Cut that off and we have "passion." Put on a heart of "passion" for truth, for spiritual power, for love" for Christ, for his righteousness, for men. A passion to make others happy and better.

"Kindness." The ness signifies state or condition. Cut it off and we have kind. Take away the "d" and we have "kin." There is the root of the word. Kin to man, kin to Christ, kin to God.

Put on a heart of lowliness. Drop the ness and the ly and the word low is left. Jesus came from heaven's glories to our low earthly state. He was "lowly in heart." So we must come down from our pride and arrogance and, like Him, "put on a heart of lowliness." "Put on a heart of meekness." Put on teachableness. "Blessed are the meek for they shall inherit the earth."

Put on, beloved, a heart of "long suffering," forbearance and forgiving, as God forbears and forgives.

Again, put on "love." Here is the top of Jacob's ladder, the mountain peak of regeneration, and the high plain of God's gladness.

Now, "let the peace of Christ rule in your hearts."

"Be ye thankful." It is easy, when you have ascended the scale of these dos. The pastor's heart will be glad as he witnesses this onward movement in your life. How can you meet these conditions? Here is the secret: "Let the word of Christ dwell in you richly."

Acts 1;4—wait at Jerusalem till you are baptized with the Holy Spirit—till the power comes upon you.

Ten days later, Acts 2;4—"And they were all filled with the Holy Spirit."

With this fire in your soul people will crowd your church to warm in the life giving heat. I charge you observe, practice the dont's and dos.

Miss Allie Fraser went to St. Joseph Wednesday evening to be the guest of Miss Helen Ardery at the Tootle theater for "Chanticleer," given by Maud Adams.

NORMAL PRESIDENT URGES CONCERTED AND INDIVIDUAL ACTION

WOULD DECORATE CITY

Beauty of City's Appearance at First Track Meet Recalled—Business Houses Asked to Close.

President H. K. Taylor of the Normal asks for the co-operation of the people of Maryville and the vicinity in the events of next week. He writes as follows:

The Normal school is spending a considerable amount of money in advertising the track meet, short course in home making, oratorical contest and teachers' association, while the people of the city are not called upon to contribute a cent to the cause. But the citizens can, at a very small cost, help very largely in making the occasion a success. Just a little expenditure for flags, bunting and pennants will give the town that gala appearance that so charmed our visitors the first year of the meet. The school colors are white and green.

I should therefore greatly appreciate it, on behalf of the school, if the people generally would co-operate in the directions indicated above. It has also been suggested by a number of people that it would add much to the prestige and interest if our business men would consent to close for a couple of hours, say from 2 to 4 o'clock. It is a foregone conclusion as it has been in the past, namely that everybody will be at the track meet during those hours, provided they can get away from their places of business.

I hope, therefore, that everybody will be given a chance to go that would like to attend. Also I should like to request the people of the town who expect to take boarders for that occasion will fill out cards and send them to the committee at once. These cards will be found at the Orear-Henry drug store, Ferrito's drug store, Raines Bros.' and Reuillard's.

The evidences are increasing every day that there will be a record breaking crowd in attendance. I greatly appreciate the help of the local press and of the people generally who not only take a deep interest in the occasion but are ever ready to render all assistance and to make the meet a success. H. K. TAYLOR.

Visiting Her Friend.

Mrs. J. C. Shuff of Pickering came to Maryville Thursday morning to spend the day with her former friend and neighbor, Mrs. J. M. Smith of St. Joseph, who is visiting at the home of her parents, Mr. and Mrs. W. A. Townsend. Mrs. Townsend is in quite poor health and has been confined to her bed for several weeks.

MONEY HALF RAISED

$250 SECURED BY SOLICITORS FOR CARL WRIGHT FUND.

MAKE ALL DAYS GOOD ONES

An Opportunity for Maryville to Help Make One Boy's Life Happy and Relieve Suffering.

E. E. Williams and W. F. Pnares, the committee selected to solicit money to pay for the medicine and hospital treatment of Carl Wright, reported $250 raised at 2 o'clock Thursday afternoon. That is just half of the amount required for the little fellow's treatment before he goes to Dr. Murphy of Chicago, the great bone surgeon, who will make a joint at the hip, where the bones have now grown solidly together from disease.

The boy will have to lie in bed at the hospital for eighteen months with a weight attached to his leg to stretch it and keep it from drawing, while hypodermic injections of tuberculin will be given each day as prescribed by the Chicago specialist.

The treatment will be administered free by Dr. Will Wallis and Dr. C. T. Bell, who are anxious to begin the treatment and watch the life-making process of the cure with an interest that a physician only can feel.

The boy was injured by a fall when he was a small child, and the disease to the bone that has resulted has caused him untold misery and pain, and he is no larger than most children of 5 years of age, although he is 12.

But he has become a regular little philosopher through his suffering. One day last summer, before the matter of treatment was thought of for him, Mark Turner found him all alone in a stairway, his face drawn with pain, and asking him what was the matter, he said: "Oh, I'm just having one of my bad days. I guess I can't expect every day to be all right."

Will not the people of Maryville do their part toward making all of this little boy's days free of pain? It is possible to be done, and it is as much our duty to relieve the suffering of a little child as it is to build schools, colleges and churches.

Only $250 more. Why not some of the women's club of the city take this matter up and raise the money that is lacking quickly? We believe the women of our city could secure that amount by making a house to house canvass of the town. Let's try and see.

WANTED IN KANSAS.

J. A. Dean Arrested Thursday Morning by Deputy Sheriff Evans and to Be Taken to Newton.

J. Alfred Dean, who has been employed on the farm of Elmer Fraser, was arrested Thursday morning by Deputy Sheriff Evans for the authorities at Newton, Kan., who claimed that Dean is charged with securing goods amounting to $24 under false pretenses at that place. Dean will be taken there as soon as one of the officials from that city arrives.

Dean told Mr. Evans that they had arrested the wrong man and that he was not guilty. It is said that Dean was once in the penitentiary, having been paroled after serving a ten months' sentence.

TO MANDAMUS CITY.

To Issue Commission to 'Squire J. W. Morris as Police Judge—Meeting of Council.

At a special meeting of the city council held Wednesday evening to discuss the police judgeship matter, no action was taken by the board other than to wait until the mandamus suit is filed against them, upon the advice of City Attorney W. A. Blagg.

F. P. Robinson, attorney for 'Squire J. W. Morris, who is claiming the office by virtue of having received a majority of votes cast at the last city election for that office, appeared before the board with a statement of the matter as shown by the record, and requested that the council make the necessary corrections, if there were any, and that this statement be presented before Judge Ellison at a session of circuit court to be held Saturday, and let the court decide the matter.

City Attorney Blagg advised the board not to agree with the statement of facts, and told them to let the other side file their mandamus suit forcing them to issue the commission to 'Squire Morris, which case would be taken up at the June term of circuit court before Judge Ellison. "The cost of the suit would amount to very little," continued Mr. Blagg.

One of the main points in the case will be whether the vote of Frank Ewing at the meeting of the council on March 15 to abolish the office of police judge should be counted, as he had moved from the Fourth ward to the First ward, and was elected as alderman from the Fourth. Ewing's vote gave the ordinance the necessary majority.

The writ of mandamus against the city will probably be filed this afternoon.

NOTABLES COMING

FIVE MEN OF WIDE REPUTATION TO SPEAK FOR NORMAL.

ALL LECTURES ARE FREE

The List Includes Dr. Winfield Hall, Daniel Morton, Dr. J. A. Puffer, Supt. Evans and Gov. Hadley.

Within the next six weeks there will be brought to Maryville by the Northwest Normal school five notable personages. Every one of these are men of wide reputation, and they will all address the students and faculty of the Normal, to which occasions the public is extended a cordial invitation.

The first of these men is Dr. Winfield Hall, dean of the medical department of Northwestern university. Dr. Hall will be with us on Monday, April 29. At 9 a. m. he will address the men; at the chapel hour he will talk to the general assembly, and at 11 he will address the women of the school. Dr. Hall is one of the great men of the country, and the people of the community should take this opportunity to hear him. The faculty and men students of the institution pay the costs of the speaker, and everyone is invited to attend free of charge.

The second occasion is on May 8, when Dr. Daniel Morton, one of the leading physicians of St. Joseph and of the west, will lecture at the assembly on the subject, "The Progress of Medical Education in the United States." Dr. Morton will especially emphasize the use of preventive medicine and public health. Dr. Morton is a man of high authority in his profession and a forceful speaker.

As was mentioned in Wednesday's issue of The Democrat-Forum, Dr. J. Adams Puffer of Boston will deliver the Normal commencement address on the night of May 22. His subject will be "Leadership." Dr. Puffer is the author of "The Boy and His Gang" and other notable books. This noted author and lecturer is possibly the equal of any other authority on the subject of boyhood and its problems, including all the subjects related thereto. This lecture will also be free of cost.

On May 24 State Superintendent of Schools W. P. Evans will talk on the mill tax proposition. Every one should hear Superintendent Evans on this subject. It is of vital importance to the cause of education in Missouri. Announcements concerning the place of the lecture will be given out later, but it is probable that it will be downtown.

The last man, but by no means the least, of this illustrious quintet of speakers is Governor H. S. Hadley, who will be in Maryville on the occasion of the annual reception and "open house" extended to the faculty and student body by the president.

Governor Hadley will deliver an address on this occasion, entitled "Rural Community Life." No word of commendation is needed for Governor Hadley. He is always interesting on any subject, but especially on the one mentioned above, as he has made it the object of particular study.

The one great emphasis that may be made to the public is that all of these talks may be heard without cost.

Went to See Maud Adams.

Mr. and Mrs. George P. Bellows, Mrs. James B. Robinson and son Chilton, Miss Georgia Condon, Miss Rena Sturm, Mr. Lawrence Schumacher, Mr. Cleve Funk and Mr. Oliver Bovard went to St. Joseph Wednesday evening to see Maud Adams in "Chanticleer."

GOING TO HELL.

Church Bell at Hopkins Rang Every Hour Monday to Remind the Unsaved of Their Doom.

The revival meetings at the Baptist church are still in progress, with a big attendance and much interest manifested.

In discussing future punishment Rev. Stewart last Sunday night declared there is a literal hell just as sure as there is a heaven—a lake of fire where the unjust will be cast to suffer through all eternity.

On Wednesday the church bell rang for five minutes every hour during the day to remind the unsaved they are on the road to that country where there is weeping and wailing and gnashing of teeth, where they will be thrown into a lake of brimstone and fire to suffer day and night, forever and forever.

This statement was not made by Rev. Stewart to be sensational, but to remind sinners there is yet time to flee from the wrath of a just God and now is the accepted time. All are invited to these meetings and will be heartily welcomed.—Hopkins Journal.

Mrs. Montgomery Again Very Low.

Mrs. R. Bruce Montgomery of this city is again lying very low at the home of Mr. Montgomery's parents, Mr. and Mrs. J. F. Montgomery. Wednesday the physicians found it necessary to break the tendons of her lower limbs in order to straighten them, and she was unable to rally from the shock, and uremic poisoning has set in.

Policeman's Novel Excuse.

Policemen on trial at headquarters are apt at excuses, says the New York Sun. Former Inspector Williams used to tell of an officer who was charged with having lost his whistle. When asked to explain he said: "You see, I went home last night and put my whistle on the table. I turned round and, bless me, one of my kids was choking and nearly black in the face. You see commissioner, he'd swallowed the whistle?" "Is he dead?" asked the sympathetic commissioner. "No, sir," was the reply. "He isn't dead, but he's got the whooping cough, and now every time he coughs the whistle blows and the cop on the post comes a-running."

Penslar Remedies

Penslar Appetizing Tonic

The principle on which the action of a tonic depends is that it stimulates the appetite and increases the digestive power, so that gain in bodily weight is the result. The active constituents of **Penslar Appetizing Tonic** are those which have been found most effective in increasing the appetite and aiding digestion. It may be depended upon in conditions of lowered vitality from any cause and is especially useful during convalescence or in cases where the vital forces show a lack of tone. Price $1. Sold only at

Home Health Club

By DR. DAVID H. REEDER, LaPorte, Ind.

A great walk—A musician of New York, Mrs. David Beach, is walking from New York City to Chicago, a thousand miles, and on the long tramp will eat nothing but raw food. She is an enthusiast on the "no meat" diet, and she is taking this long walk to prove her theory and contendon that through a diet of raw food lies the road to health, wealth and happiness.

There is no wager to be laid on the feat and it will not even come under the newspaper heading, "Sports of the Day." Moreover, the lady is not performing the feat for notoriety or any other gain than that which she hopes to achieve for all the world in the matter of showing how the general health may be increased. She is evidently a well-to-do woman, as she will be accompanied on the tramp by her own automobile, chauffeur and maid and a correspondent, who will give the details of the trip to the press. Moreover, she pays all of her own expenses.

The lady will walk the entire distance, not for spectacular purposes, but as the most palpable way of exhibiting to all the world that one may undergo great exertion and continuous, like any other kind of labor, upon a diet from which meat or any other cooked food is excluded, and yet she does not advocate the idea that folks should not eat cooked food. On the contrary, in her daily life she uses cooked food, but no meat, and is on this trip, merely excluding cooked food to emphasize her contention that the simplest food is best for people to live on, and that much decreased quantities are better. She also admits that this should all be arrived at by degrees and should not be radically begun.

Altogether this person is the most reasonable "enthusiast" that has come into public notice, so far as we know. While she insists that walking is the handiest exercise for one to take, she does not suggest that one should walk a long distance to work and back. She does not insist that one should carry a lot of grain in a pocket, to be eaten between meals, that the kitchen range should be thrown out of a window, that one should eat anything that is not desired, but she declares that if she can persuade a great many to quit eating meat and very much of anything else, her mission will have been performed, and while she has a set of rules for diet that she strictly follows herself and thus keeps herself strong, healthy and competent, she only declares that the more of her rules that are adopted the greater will be the benefit to those who adopt them.

While declaring that coffee is bad for the health of anyone, she says: "If you believe that you must have your demi-tasse after dinner, have it, but please give up coffee at luncheon and drink milk instead. If your palate craves bacon and eggs, eat as little of the bacon as possible.

"I know that if you are liberal minded and take enough interest in my form of diet to read what I write about it you will be willing to try a few of its features. Once you obey one of my rules consistently or try half a dozen of my recipes, you are lost. Gradually the habit of following my advice will grow upon you and you will become healthy in spite of yourself.

"Everybody wants to be healthy, but few want to take the trouble. It is difficult for a person who lives in a boarding house to diet, no matter how much he may want to. I will tell you, though, how even the man who lives in a boarding house can improve his health.

"Most of my recipes need a kitchen—at least, a kitchenette—for their preparation. I am going to give you a great many recipes for dishes that require cooking. Even I eat cooked food when I am in my own home. I am going to touch nothing but raw foods on my long tramp, however. I want to undergo the most severe test possible to prove that my theories apply as well to the many who do manual labor as they do to the woman who has servants to wait upon her and who seldom goes out of her home."

Evidently this lady is very intelligent, decidedly philanthropic and very much in earnest. Moreover, many of her theories are sound, though to some extent impractical at this stage of the world. She will do a great deal of good, and it matters not how good it is done, so it is accomplished.

The Home Health club constantly advises the none-use of coffee, the very considerable reduction of meat, and at two of the meals of the three, none; the reduction of quantity in all foods consumed by the individual; the bring oneself to get along with. This, simplest foods that one can possibly with plenty of exercise, deep breathing, pure air and water, sanitation and all cleanliness, will work wonders in the advancement of the world through increase of health, capability and consequent happiness and prosperity.

As Mrs. Beach says: "Everybody wants to be healthy, but few want to take the trouble," and yet health means far more than physical good feeling. It means a better state of heart and mind, a greater capacity for doing well and, to the extent that it prevails, a better people and a better world to live in.

Club Notes.

Dear Doctor: Please tell me what can be taken or done to gain flesh. Am well, but very thin. Have been drinking warm milk with little satisfaction. Am 23 years old and married.

MRS. N. P. A.

Practice deep breathing systematically, three times daily, about one hour after each meal. For dessert eat daily two ounces salted almond nut meats, sleep between eight and ten hours every night. If you can do so, go to bed early and get up late. Take one quart of milk strippings fresh from the cow morning and evening. If you follow this regime religiously for six months and don't worry in the meantime, you will be as plump as you wish to be. If you don't gain the desired amount of fat under this system, then you should have a thorough and careful examination made by a reliable and experienced physician who is familiar with reflex nervous troubles and have the cause of mal-assimilation discovered and removed.

All readers of this paper are at liberty to write for information pertaining to the subject of health at any time. Address all communications to the Home Health club, or Dr. David H. Reeder, La Porte, Ind., with name and address in full and at least four cents in postage.

MEXICO DENIES RESPONSIBILITY

Criticizes Tone of American Note to Consul Letcher.

PREPARES TO RESIST INVASION

Madero Arranging for $10,000,000 Bond Issue to Place Army on Equal Footing With United States.

The City of Mexico, April 18.—The Mexican government refuses to recognize the right of the American government to instruct it on its duties in its observance of international law. The declaration is made in a statement by Minister of Foreign Affairs Calero in reply to the demand of Huntington Wilson, the assistant secretary of state.

President Madero is said to be arranging to raise $10,000,000 to prepare Mexico against an invasion of the United States. This statement was made by the secretary to the president, who gave it as a direct quotation from Madero.

It was declared that Madero now has a big deal on through which he hopes to raise funds to equip the army so that it will be as nearly on a footing with the United States troops as possible. With this sum, Madero's secretary said, the president would be able to put 60,000 Mexicans in the field and be prepared to meet the invading Americans in a fight for control of Mexico.

Denies Wrongdoing.

After setting forth at length the clauses of the Washington note, the minister said:

"In reply and by express instructions of the president of the republic I have the honor to say to your excellency:

"The Mexican government finds itself in the painful necessity of not recognizing the rights of your government to make the admonition which the note contains, for the reason that it is not based on any incident that should be chargeable to the Mexican government and which could signify that it might have departed from an observance of the principles and practices of international law.

"The authorities of the republic have always endeavored, within the limits of its law, to punish those who cause the damages to which your excellency alludes.

Not Responsible.

"My government has taken notice of the communication directed to the rebel, Orozco, by order of your excellency's government and through the conduct of Consul of Consul Letcher in Chihuahua.

"The Mexican government and people cannot be responsible for the acts of this rebel chief, along the lines laid down in the communication which was sent to him by order of your excellency's government.

"My government also deplores that the tenor of the instructions to Consul Letcher in Chihuahua were given to the public in the same official note which I have the honor to answer."

PRISONER ASSISTED OFFICER

Postoffice Robbers Caught With Their Booty by Jailer and One of His Charges.

Enid, Ok., April 18.—When Mark Conrad, the county jailer, received word from Minco, Ok., of the robbery of the postoffice there he took one of the county prisoners with him and captured the two robbers as they left a northbound passenger train here at the station. The men, John Newton and Charles Anderson, were found with $1,200 worth of stamps, $70 in silver money and bills, nitroglycerin, two revolvers, complete kits of burglar tools. Within five hours after the robbery they were in jail.

Charges of robbery were entered against both men and United States Commissioner Swigert bound them over to the federal court, fixing their bonds at $2,500 each.

SAVE STATE OF KANSAS $10,000

Plans Completed for Printing 24 Department Reports in One Consolidated Volume.

Topeka, April 18.—The state printing commission has just finished its plans to save the state almost $10,000 in printing the biennial reports of state departments and state institutions. Heretofore 24 departments and institutions have had separate reports, making a total of $5,041 pages. The printing cost was $3 a page or $15,000. All the reports will be consolidated into one volume of 1,700 pages and the cost will be about $5,000 for the same number of copies of the separate ones. The 24 reports filled a bookshelf three and one-half feet long and the consolidated report will make a book three and one-half inches thick.

Two Dead in Alabama Feud.

Selma, Ala., April 18.—J. T. Bradford and W. H. Bradford, widely known residents of Dallas county, are dead, George Hains is in a dying condition, and his nephew, named Hammond, is perhaps fatally injured as the result of a feud fight at Roache's Landing on the Alabama river, near here.

NO INFORMATION FROM CARPATHIA

Impossible to Get Details of Catastrophe From Gunarder.

LIST OF RESCUED IS COMPLETE

Scout Cruiser Chester Says all Names Except Steerage Passengers Sent Ashore — No Explanation From Surviving Officers.

New York, April 18.—Beyond even the mystery of how the mammoth Titanic met her fate, another mystery, evolved by the events of the last three days has forced itself to the front.

Although the rescue ship Carpathia was within the zone of wireless communication for hours during the night and both shore stations and relaying ships were able to obtain from her long lists of survivors among the steerage passengers and to send and receive numerous short messages from and to private individuals, not a word of matter descriptive of the manner in which the steamer received her death blow, or how those on board the doomed liner comforted themselves in the face of impending death reached the shore.

Neither was there any explanation forthcoming from the surviving officers of the Titanic as to how their ship came to strike the hidden obstacle in the ocean.

Wireless Perfect.

From the Marconi offices word came that repeatedly, when the wireless working conditions were perfect, the Carpathia was asked to convey to the waiting world some idea of what were the momentous happenings on the Titanic in the terrible three hours and 55 minutes between the time when she struck the iceberg off the banks and that of her final plunge to the bottom.

One explanation advanced was that the wireless operator of the Carpathia was exhausted as a result of his three days' work at the key.

But among the list of rescued on board the Carpathia is the second wireless operator of the Titanic, who might have been counted upon to relieve the wearied sender of the Cunarder.

Censorship Exists.

A censorship appeared to exist on the Carpathia, which prevented any response to inquiries of what had taken place after the Titanic struck the iceberg. The wireless operator on the Carpathia is an officer of the Cunard line and therefore subject to the ship's commander.

The roll of the saved from the disaster now seems complete. Virtually every attending circumstance in the transmission of news from the Carpathia goes to show that only 328 of the 610 cabin passengers of the Titanic are safe on the rescue ship.

Thousands of hopeful hearts were turned to despairing ones when the United States scout cruiser Chester "wirelessed" ashore late in the day that she had been in communication with the Carpathia and had asked repeatedly for the full list of the first and second cabin survivors and that the rescue ship reported that all the names had already been sent ashore.

The remainder of 340 persons saved were passengers in the steerage or members of the crew.

One New Name.

After the strain of three days' waiting without news of their missing ones, there were few of the hopeful that still held out against the seemingly final word as to the fate of friends and relatives.

The small remaining hope of the few who persistantly refused to believe the worst, resied on the faint possibility that the list of survivors sent by wireless, from the Carpathia, might not be quite complete after all.

The fact that one new name came through late in the day in a private message from the Carpathia, was the basis of what was a desire more than a hope that there were slips enough in her wireless lists to account for a few, at least, of those still unaccounted for.

TOO FILTHY FOR A PRISON CELL

Tramp, Arrested at Iola, Refused Admittance to Jail Because of Danger to Other Prisoners.

Iola, Kan., April 18.—J. R. Whaton, was refused admittance to the county jail here after being arrested for investigation, because he was a menace to the other prisoners. His clothes were filthy and his stubby beard was matted with dirt and cinders.

Chief Coffield was unable to induce anyone to furnish a bathtub or clean clothing and was obliged to chase the man out of town.

Whaton was loitering around vacant houses and frightening women and children. When bath was mentioned to him he glared. Whaton carried a tomato can and a catsup bottle in his pockets.

Salina Depot Burned.

Salina, Kan., April 18.—The Union Pacific passenger depot burned here at a loss of probably $6,000. The coupon ticket cabinet and all the tickets burned but the other contents were saved. Defective wiring started the fire. There was no insurance.

Should Be Worth Reading.

In Madison square she sat down for a moment. It was the noon hour and the benches were full of prisoners released from office and shop. Opposite her sat a horrible male creature all beak and double chin, alternately whispering and toothily leering into the face of the ravishing little type writer seated beside him.

The pretty thing was all knowing smiles and tricks and feminine wiles. Finally, tossing her head, she announced:

"Well, some day I'm going to write a book, and I'm going to call it, 'As I Have Found It! As I Have Seen It!'"

"Life as found and seen by a New York typewriter girl ought to make very entertaining reading indeed," murmured the woman to herself as she pensively turned homeward.—New York Press.

SURVIVORS TO TELL CONGRESS

Will be Questioned Regarding Life Saving Equipment of Titanic.

MARATIME TREATY MAY RESULT

Congress Cannot Punish Steamship Company, But Much Good May be Accomplished by Proposed International Agreement.

Washington, April 18.—Survivors of the Titanic disaster will be summoned to Washington to tell committees of congress the facts concerning the inability of the steamship officials to save the lives of all the passengers on the giant liner. Representative Alexander of Missouri, chairman of the house committee on merchant marine and fisheries, announced an investigation in which the passengers will give chief testimony.

A resolution was adopted in the senate to direct the commerce committee to make a thorough inquiry into the Titanic tragedy and to empower the committee to summon witnesses and take any necessary steps.

No Power to Punish.

Congress cannot punish the steamship company, as it sailed under the British flag, but the information gained will go far toward revising laws affecting any ship sailing from an American port in the future.

Senator Perkins' resolution provides for the equipment of steamers with adequate life-saving apparatus. It would require that every steamer shall have a sufficient number of seaworthy life boats to carry "at one time every passenger and every member of the crew; that it shall not clear any port without so certifying to the several supervising inspectors."

The house committee on merchant marine will speedily take up the many bills and resolutions which have been introduced bearing on the Titanic disaster.

Would Provide Imprisonment.

Representative Alexander of Missouri, chairman of the committee, introduced two resolutions. One would direct the president to invite the maritime nations of the world to appoint members of an international commission to define ship lanes and routes and to minimize the danger of collisions at sea. The other would extend a similar invitation to nations interested in north Atlantic steamship travel, to form a commission to arrange for a warship patrol of north Atlantic waters to warn ships.

Gen. George Uhler, supervising inspector general of the steamboat inspection service, expressed the view that much good could be accomplished by an international congress to consider life-saving appliances. He said there was no action that his department could take in the Titanic case in view of the fact that the vessel was a foreign craft, complying with the British navigation law.

Woman Head of Child Bureau.

Washington, April 18.—Julia C. Lathrop of Chicago, an associate of Jane Addams in the work at Hull house, a member of the Illinois board of charity and a graduate and trustee of Vassar college, was appointed by President Taft as chief of the new children's bureau in the department of commerce and labor. Miss Lathrop is the first woman to be made a bureau chief under the government.

IS NOT A CANDIDATE.

Mayor Robey Stated Thursday That He Would Not Run for State Senator.

Many friends have urged Mayor Robey to run for the Democratic nomination for state senator from this district. Mayor Robey said Thursday that he would not become a candidate for this office, as he was just recently re-elected mayor of the city and that he intends to serve out his term as such.

Mayor Robey's name was mentioned the first of the year for senator, but he said then that he thought he would run for mayor, as there were some unfinished business, started during his administration, which he would like to see carried through.

Miss Alma Hotchkiss of the St. Joseph high school faculty arrived home Thursday to visit over Sunday with her mother, Mrs. Anna Hotchkiss. The St. Joseph schools are having a two days' vacation.

Moving Successward.

Joseph M. Gates was talking at the New York theater about the superfluity of show girls in Manhattan.

"Every opening," he said, "has a dozen show girls clamoring to fill it. I got thirty or forty girls positions in department stores last week. The surplusage of show girls is due to the fact that so many artists' models have turned to theatricals this winter.

"The models say there is no work for them. Art is in a bad way. The rich collectors buy nothing but old masters from abroad."

Mr. Gates smiled.

"But it would be nearer the truth," he went on, "to say that lots of artists are failures. Even the successes, you know, are only half a quarter successes—like the young surgeon.

"'How is your surgeon son doing?' one old man said to the other.

"'Oh, fine!' was the reply. 'Fine! He performed his eleventh appendicitis operation last week and the patient lived three hours'"—Cincinnati Commercial Tribune.

MRS. McGILL BROKE DOWN

Gives the Real Facts In Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good.

One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.
